

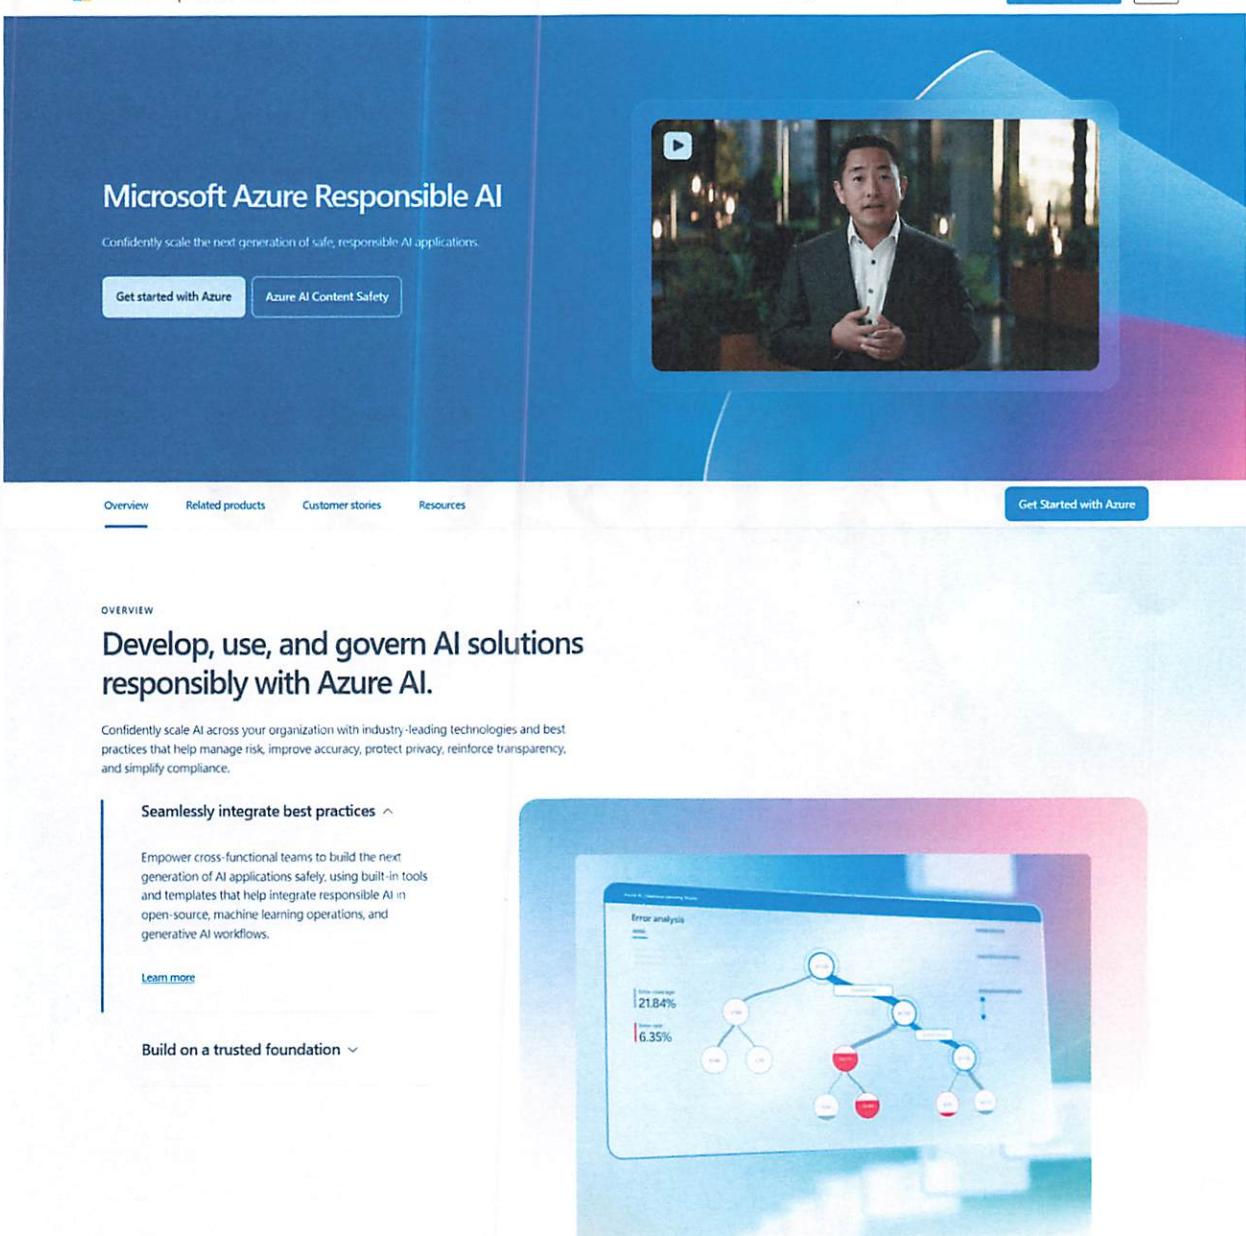

# Exhibit 18

<https://azure.microsoft.com/en-us/solutions/ai/responsible-ai-with-azure/#features>

The screenshot shows the Microsoft Azure Responsible AI landing page. At the top, there is a navigation bar with the Microsoft logo, a search bar, and links for Learn, Support, Contact Sales, Get started with Azure, and Sign in. The main header is "Microsoft Azure Responsible AI" with the subtext "Confidently scale the next generation of safe, responsible AI applications." Below this are two buttons: "Get started with Azure" and "Azure AI Content Safety". To the right is a video player showing a man in a suit speaking. Below the video are navigation links: Overview (underlined), Related products, Customer stories, Resources, and a "Get Started with Azure" button. The "OVERVIEW" section features the heading "Develop, use, and govern AI solutions responsibly with Azure AI." with a subtext about scaling AI across an organization. It includes a "Seamlessly integrate best practices" section with a description of empowering cross-functional teams and a "Learn more" link, and a "Build on a trusted foundation" section. To the right of the text is a diagram of a decision tree with nodes labeled with percentages: 21.84% (green), 6.35% (red), and others. The background of the page is a blue and pink gradient.
